

## STATUS ON REPOSITORY CONCEPTS INTERNATIONALLY–PANEL

**Session Organizer: Fiona Rayment (NNL-UK)**

### **Panel Discussion**

Waste and spent fuel management continue to be key areas of focus for the industry with long-term solutions for ultimate disposal being the ultimate aim. This panel discusses the current status of repository developments internationally together with key challenges that are being addressed and areas of best practice being adopted.

**Panelists:** *Finland Repository Update, Mika Pohjonen or representative (Posiva Solutions Oy)*  
*France Repository Update and Update on the EU IGD-TP, Patrick Landais (Andra)*  
*A View from the U.S. Nuclear Industry, Rod McCullum (NEI)*  
*An Update from the UK, Anthony Banford or representative (UK NNL)*
